Program Guide

Fall 1976

WELCOME

If you don't know about us, you should take the time to find out. We're radio station KUCI. Located at the University of California, Irvine, KUCI has been serving the community since 1969. KUCI does this in a number of ways. We respond to the local community with Public Affairs, which are broadcast at various times during the week. We also air the weekday news several times during the day.

We are all volunteers at KUCI, and we feel the hard work each one of us puts into the station makes it that much more unique. The open format existing at KUCI gives us a wide variety of radio programs. We hope you will find what you need in KUCI. This program guide is to help you utilize KUCI to the fullest extent.

John Donan
Program Director

Public Affairs

KUCI's Public Affairs plays an important role in the total programming of the station. We are trying to be responsive to the needs of all of the local community, so if you have any suggestions, please send them to:

SPECTRUM — MONDAY, WEDNESDAY, FRIDAY 10-10:30 a.m.

Spectrum brings you the best in a wide variety of public interest programming. Local interviews and features from NASA, Radio Moscow, and Rolling Stone make up an interesting half-hour designed to fill you in on the community and the world.

RADIO CANADA — MONDAY 10:30-11 a.m.

This program features a wide array of material pertinent to those of us south of the border, both in terms of music and lectures.

SANE VIEWS THE WORLD — WEDNESDAY 10:30-11 a.m.

Timely discussions of the issues facing our government, both here and abroad. If politics is your "bag," this is for you!

SCAN — FRIDAY 10:30-11 a.m.

An examination of some of the social problems prevalent throughout the country; such as rape, welfare, and aging. Rather than being a cold, impersonal report, it deals with people as individuals.

COMPENDIUM — SATURDAY 11-Noon

A program featuring Al Gee's "Rap 'n' Rhythm" (interviews with contemporary blues and jazz artists) and highlights of the weeks public affairs.

LINER NOTES — MONDAY 9-10 p.m.

Each week, LINER NOTES focusses on a major artist or group on the contemporary music scene. It gives the "inside scoop" on all the happenings in rock 'n' roll. If you want to be in the know, (and hear some fine music) tune in.

HISTORY OF ROCK 'N' ROLL — WEDNESDAY 9-10 p.m.

Everything you know is wrong! Chuck Berry was **not** the dominant force in the 50's! The Four Seasons, at one point in time, were a hotter group than the Beatles! David Bowie is a jerk! For all this AND MORE, it's THE HISTORY OF ROCK 'N' ROLL!
